DETAILED ACTION

1. The Examiner has carefully considered Applicant's amendment and accompanying remarks filed August 18, 2006. In view of Applicant's response, the rejections in view of Ray, Jr. et al. (US 4,101,700) and Shackel et al. (US 5,567,504) have been overcome. However, Applicant's amendments to the claims are considered new matter.

Claim Objections

2. Claim 32 is objected to because of the following informalities: the claim is dependent upon a canceled claim (i.e. claim 31). Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 3-8, 29, 30, and 32-47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claims 1, 29, 38, 43, and 47 have been amended to read on a body layer and a cover layer "without a facing layer therebetween." Applicant has relied on Figures 2A and 2B to provide support for this amendment. It is the Examiner's position that the phrase "without a facing layer therebetween" is new matter, because this negative limitation is not literally supported by the specification. *Ex parte Grasselli*, 231 USPQ 393. Figures 2A and 2B support the

limitation that the cover layer is cast "directly" onto the textured face, but do not support the limitation "without a facing layer therebetween.

Response to Arguments

5. Applicant's arguments with respect to claims 1, 3-8, 29, 30, and 32-47 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
